Results-driven IT student with proven expertise in full-stack development, UI/UX design, and backend systems. Combines technical proficiency with creative problem-solving, delivering polished solutions through effective cross-functional collaboration and strong project management.

PROJECT EXPERIENCE

SYNCUP *(TypeScript, NextJS, React, Supabase)* — **Cebu City, PH**
UI/UX Designer and Full Stack Web Developer — *January 2024–December 2024*

- Designed intuitive, visually appealing website interfaces and developed backend systems for smooth functionality and data management. Contributed to project documentation for ongoing development and maintenance.

PROGENETOR *(JavaScript, React, NextJS, Gemini AI)* — **Cebu City, PH**
Full Stack Web Developer — *May 2024*

- Led the design and development of both the website frontend and backend, including AI integration, ensuring seamless functionality and efficient data management.

COMMUNICARE *(JavaScript, NextJS, React, Spring Boot)* — **Cebu City, PH**
Backend Web Developer — *August 2023–December 2023*

- Developed efficient, scalable backend systems and collaborated with the UI/UX team on Figma designs to ensure frontend-backend alignment. Managed project timelines and delivered milestones on schedule.
